

IAOMT Student Scholarship Program

The Student Scholarship Program for IAOMT Conference Attendance was launched in 2016 with the purpose of offering interested dental students the opportunity to learn more about biological dentistry. Recipients of the scholarship attend an IAOMT conference where they are matched with an experienced mentor, participate in an introduction to biological dentistry workshop, engage in the Academy's symposium featuring scientific lectures, and network with IAOMT member dentists and other health professionals. Funding is provided to ease the financial burden on the students for travel, lodging, and meals.

Priority is given to candidates pursuing their Doctor of Dental Surgery, Doctor of Medicine in Dentistry, or Doctor of Dental Medicine, especially those in their third or fourth year. Scholarships may also be awarded to residents in other relevant post-graduate programs, as well as students pursuing degrees in dental hygiene."

For more information about our Student Scholarship Program for IAOMT Conference Attendance, and to request an application, contact Betty Izquierdo, IAOMT Administrative Assistant and Member Liaison, via email at betty.izquierdo@iaomt.org or via phone at (863) 420-6373.
